INNOVATIONS AND INSPIRATIONS SPRING/SUMMER 2019

SWAROVSKI

DESIRING EXPERIENCES
OVER THINGS

has become a modern-day mantra. This season we take this mantra to heart and highlight the reasons why people travel: for boundless joy, a feeling of freedom, new barefoot luxury and even higher learning. As you browse through this catalogue of innovations, we hope you'll find inspiration from the currents of social change that drive us.

When we dream of far-away places, the background of a perfect holiday is always a quality of blue we're calling Majestic. This versatile new color option, which is as intense as the sea and as clear as the wide-open sky, will be available in a variety of cuts and shapes for boundless creative possibilities. Majestic Blue's deep hues are the perfect complement to three Crystal Shiny Lacquer^{Pro} Effects – Crystal Buttercup, Crystal Lime & Crystal Lilac – for elegant styles, bold streamlined looks and expressive designs.

In addition to closely following trends, it is you – our clients – who inspire us to push our boundaries and to offer the most innovative crystal products and services. This season, we are pleased to present new shapes and cuts such as the Classic Cut Pendant, Geometric Flat Backs, Teardrop Fancy Stone, Mini Size Flat Backs and even the adaptable Fine Rock Tubes, which merge the appeal of sparkling crystal with metal elements and streamlined shapes.

We hope to fuel your imagination!

Markus Langes-Swarovski

INNOVATION HIGHLIGHTS

SPRING / SUMMER 19

CLOSE YOUR EYES TIGHT. THE LASTING IMAGE OF YOUR MIND'S EYE IS LIKE A PHOTO NEGATIVE OF THE IDEA YOU CAN'T GET OUT OF YOUR HEAD. THIS IS THE STUFF OF IMAGINATION.

In the pages that follow, you'll find yet undiscovered elements sparkling at the heart of a lavish new design. The right cut is essential, as is the color; it has to be perfect. It's an indescribable hue with an almost ethereal quality and it's only from Swarovski.

NEW COLOR

MAJESTIC BLUE

Deep and evocative, like an homage to cobalt skies and sapphire seas, Swarovski presents Majestic Blue: the color of lasting memories. Pure and with a deeper hue and more intense sparkle than any previous shade of blue, this color is ideal for costume jewelry, apparel, and accessories. Now available throughout the entire product range, the possibilities with this luxurious crystal shade are as wide open as the skies.

Check colors and sizes on page 43.

NEW BEAD

FINE ROCKS TUBE

Like a chandelier suspended from a beautiful ceiling, this chute of crystals is the perfect eye catching element for jewelry or accessories. The Fine Rocks Tube is the culmination of fashion-forward thinking for the creation of new hybrid beads for highly individualistic designs. Featuring a pavé look with highly refined surface brilliance with double-pointed chatons, these special elements are available in a variety of colors and effects. Application is easy: Sew on or use as a bead.

Check colors and sizes on page 61.

NEW FLAT BACKS

GEOMETRIC

Choose your sequence and go: Geometric Flat Backs will jumpstart your design, energizing your pattern with form, energy, unity and balance. Infinitely combinable and featuring classic shapes with simple cuts, these versatile elements are perfect for crafting decorative designs or ornaments with repeatable patterns.

Check colors and sizes on pages 71 and 75.

NEW PENDANT

CLASSIC CUT

Versatility never goes out of style. Neither does simplicity. Featuring a multilayer round cut ideal for creating the look of fine jewelry without the need for a setting, this classic gemstone-inspired crystal features 49 lustrous facets for brilliance that stands the test of time. Available in crystal and 11 other colors with 5 unique effects, this round pendant is ideally suited for jewelry and hand-sewn apparel and accessories.

Check colors and sizes on page 68.

INSPIRATIONS

WANDER LUST

Numbed and bored by today's technology driven world, we opt to refocus on the human element with its emotional, intellectual and spiritual demands. Craving connection, seeking authenticity and desiring the real, we travel the world – experiencing new cultures and exploring new regions in order to learn, grow and ultimately find happiness. Gap-year travels, adventure journeys, "snackable" holidays or luxury seafaring cruises confirm the new experience consumer for whom traveling is more than just going to a different place – it is about creating new meanings, and making the best of life.

This season we highlight new ways of fulfilment and satisfaction through travel experiences that transform us, bringing an element of joy to our lives.

10 – 15
CULTURE

Stemming from the increasing aspiration to add creativity and color into our lives, cities are becoming urban backgrounds for extreme art and sculptural installations. By releasing them from their traditional galleries, and connecting them directly with the environment and surroundings, art loses its exclusivity, and becomes inclusive. Becoming an active participant rather than a passive one, the new art tourist champions the designer within, surrounding themselves with the joy of artistic endeavors and reconnecting with their surroundings.

16 – 21
FREEDOM

As the desire to "get away from it all" gains increasing traction, the 70s surfer mantra of "take it easy", has garnered a new cool cache for the next generation. Gen Z and Millennials are forging an upsurge in experience travel, as the desire to reconnect – with each other and nature – becomes ever more prevalent. Demanding sensorial experiences as a calming counterbalance to frenetic fast-paced living, this new- age traveler opts for a sense of total freedom in their travel plans.

22 – 29
ADVENTURE

A generational change has created a desire for experiences in the modern traveler's mindset. A nomadic journey away from the everyday unfolds as travel concepts – even for solo travelers – become more about the real, the rough and the ready. The focus is on nature, no crowds, and virtual silence with the re-engagement of a survival ethos holding new appeal for these "Wild Wanderers".
The fabulous freedom of a road trip, the emotional quest for solitude and the need for individual experience beckons.

30 – 35
LEISURE

The renewed focus on the privilege, indulgence and even expense of yachting is enticing a new league of affluent travelers. Becoming an emblem of barefoot luxury – it is lavish, full-frills tourism that lures with its prestige; for those who can afford it.
The ability to pull up anchor and sail to the next secret destination, to customize and individualize the journey, highlights the sheer indulgence and appeal of this exclusive form of travel.
Yet with the desire to escape, to relax, high on the priority list, the ultimate luxury remains the same – time!

IN A BLAZE OF RADIANCE, OUR
INNER ARTIST WILL CAPTURE ATTENTION.

ARTISTIC INFLUENCE

Architectural atmospheres, building blocks, altered shapes and silhouettes in streamlined formats and traffic-stopping, color-influence designs.

CULTURE

JEWELRY

Tapping into the Personalization Megatrend, attention-grabbing jewelry in vibrant colors, mixed gems, crystals and pearls become uniquely artistic pieces.

TRAVEL ITEMS

Synthetic materials retain a matt surface and simple shapes allow for easy interchangeability as versatility in design gains importance.

9 4322 Teardrop Fancy Stone

Contemporary florals are re-created in whimsical crystal designs for this new direction

ACCESSORIES

The continuing use of transparent materials in accessory directions is a direct reflection of the growing consumer demand for governments and companies to highlight the real, to have nothing hidden.

FREEDOM
FOLLOW THE SUN,
IN ORDER TO FOLLOW
YOUR DREAMS!

FREE STYLIN'

Surf and skateboard references underline the homage being paid to a freer and a more balanced lifestyle for these new "transcendental travelers".

FASHION

Re-inspiring a new generation – as they desire to reconnect with the past, nature and each other – "Now-stalgia" highlights a mash-up of vintage patterns, crystals and materials reflecting the free spirit.

FREEDOM

TRAVEL ITEMS

Only the bare necessities. Things you pack and carry – that also lift your heart – play into this young take on key-piece culture in free flow.

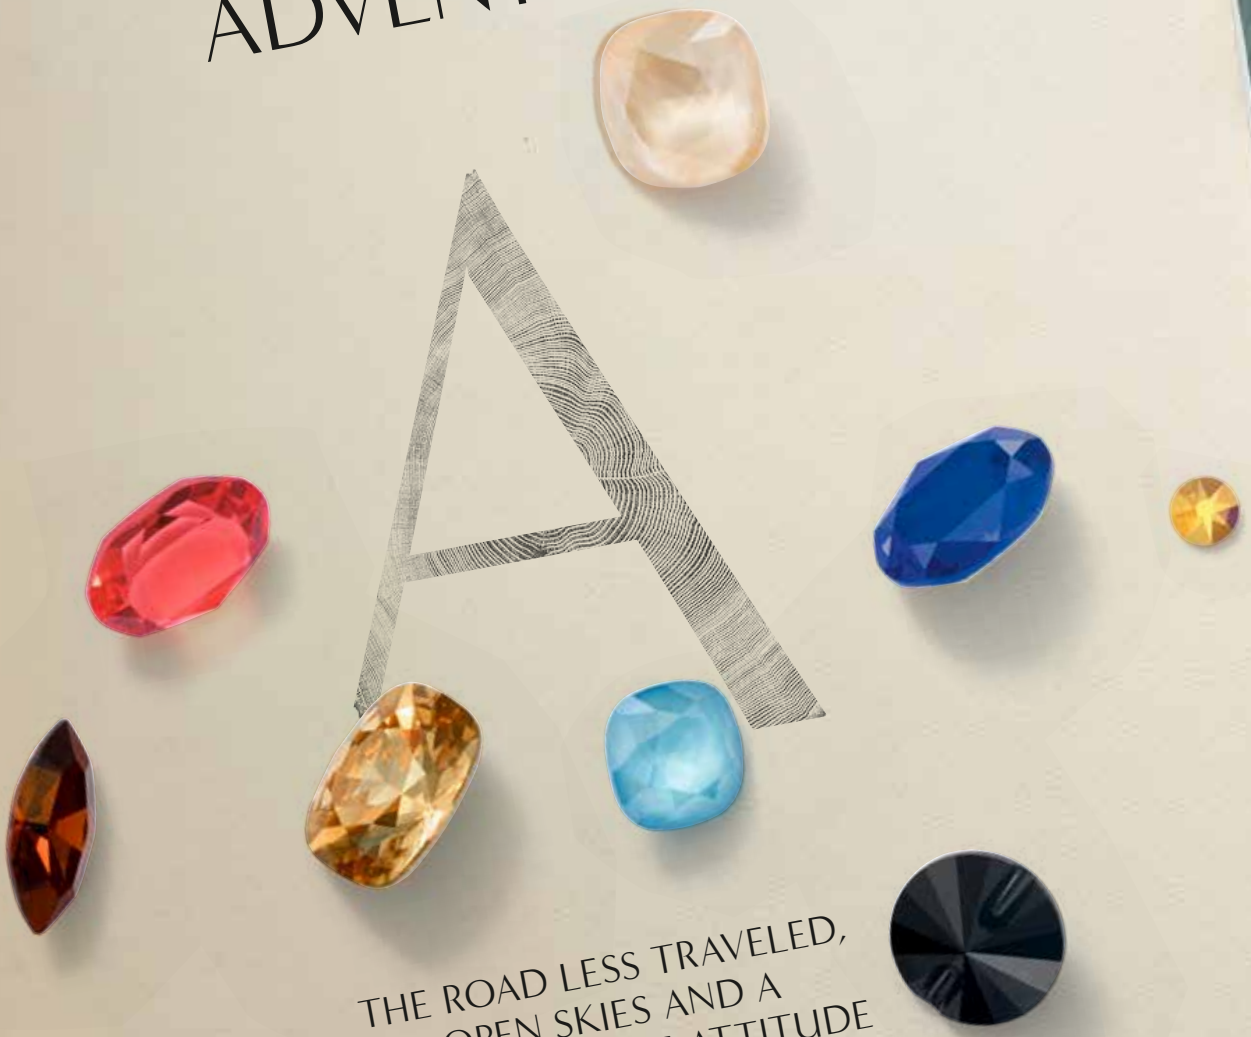
SPELL IT OUT!

Crystal slogans actively promote our beliefs and desires as part of the continuing customization trend.

JEWELRY

Taking inspiration from natural elements, designers work with crystals and shells – worn as talismans for luck – to highlight the respect for nature inherent within surf culture.

ADVENTURE



THE ROAD LESS TRAVELED,
OPEN SKIES AND A
DEVIL-MAY-CARE ATTITUDE
ARE ALL THAT IS NEEDED.

JOURNEY OF THE HEART

Down-to-earth and of the land, the majesty of nature is reflected in all its guises as old wisdom and new perspectives gain ground. From desert skies to dusty roads, the call of the great unknown is echoed in the rawness of organic design elements and dusky color palettes.

JEWELRY

Brushed and gilded surfaces hold a handcrafted feel with crystals and gemstones inlayed and sliced to form new shapes.

TRAVEL ITEMS

How travel – by horse, foot or even motorbike – highlights the need for functional design with a survivalist mentality, where everyday elements offer practical support.

8 CRYSTAL MEDLEY
73000 onwards in Jet Nut 280 NUT

ADVENTURE

ACCESSORIES

Rough and tumble elements infiltrate fashion, with sturdy materials and well-worn leathers highlighting a "not-to-be-messed-with" attitude for a life on the move. Scuffed, hard-wearing leather boots and cross-body bags take center stage, as performance and functionality combine in one design.

Born out of necessity, strong fabrics like denim, suede and canvas are mixed. Ethnic prints and patchwork highlight a recycling ethos with fabrics pieced together to create a "world-traveler's" uniform. Felt and broad brimmed hats offer practical protection from harsh external environments.

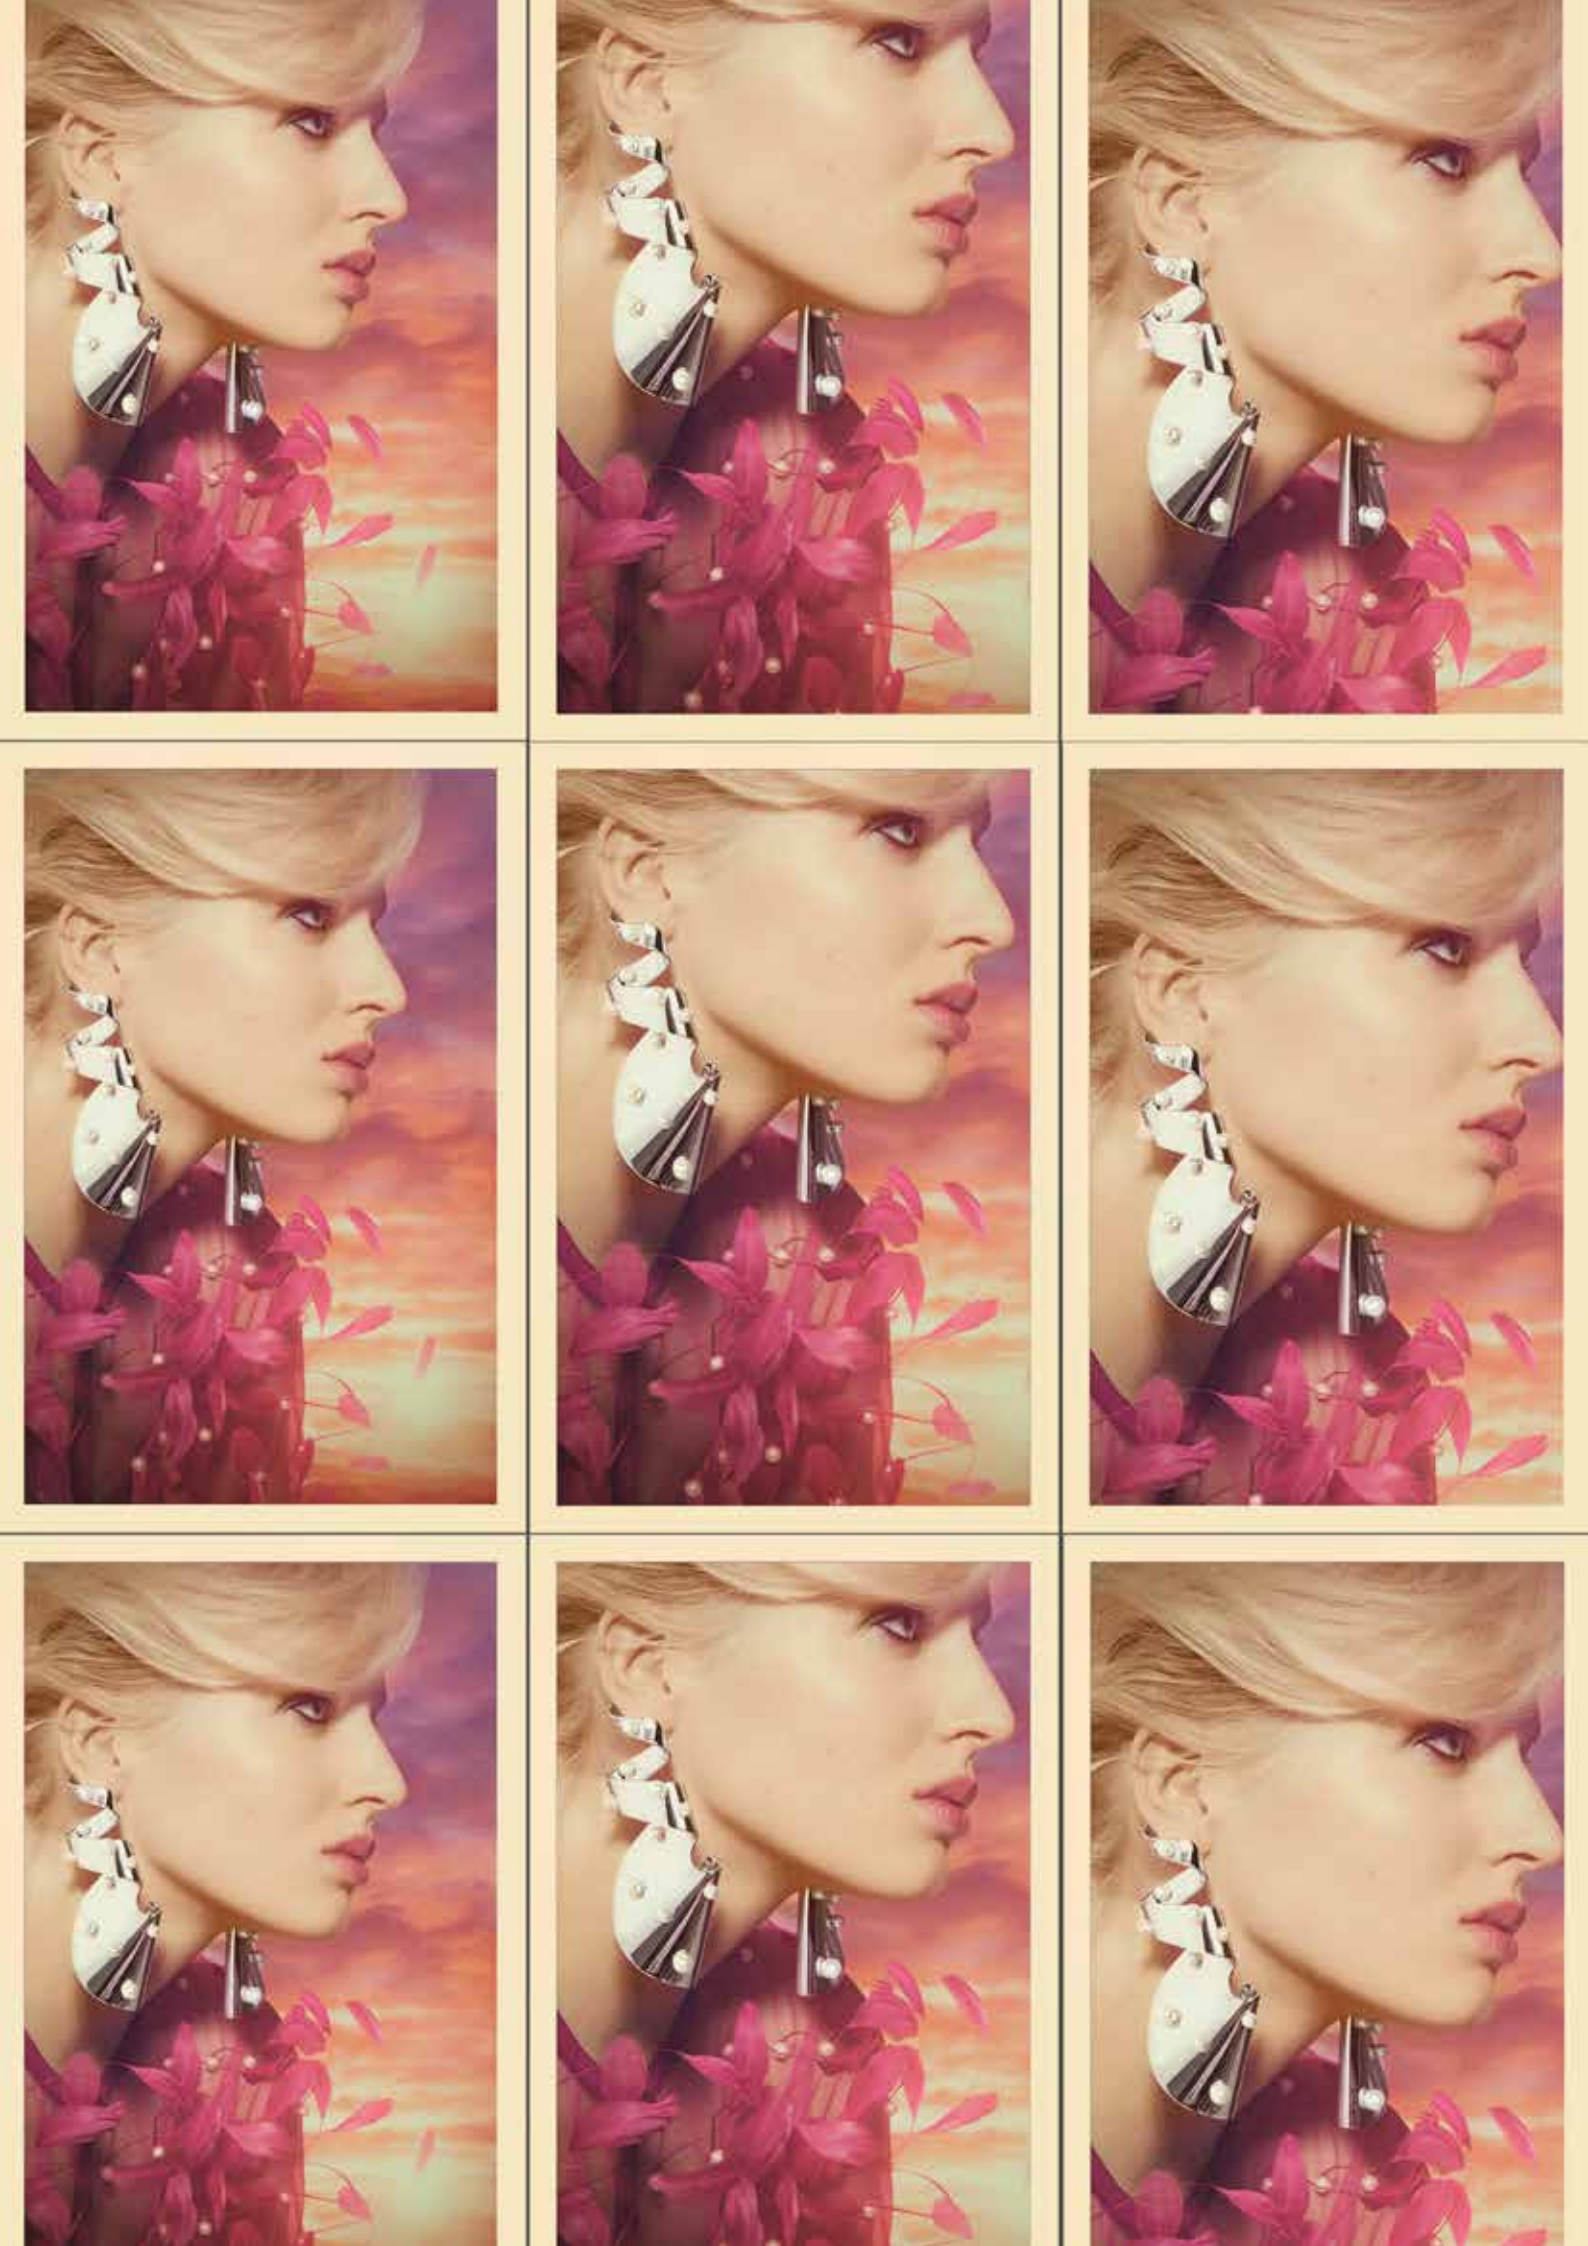
JEWELRY

Ornamental designs pay homage to local and historical craftsmanship with treasures picked up along the journey.

Crystal florals and softened geometric patterns are re-generated in a Western/Asian blend for an entirely new direction.

JEWELRY

Beaten and molten metals in solid and flexible elements, are interspersed with crystal pearls to add even more interest to unique pieces.



FASHION

Exquisite and exclusive, exaggerated all-over embellishment in intense silver sheens, appears like fish scales for streamlined sophistication.

TRAVEL ITEMS

The devil is in the details, as a more streamlined direction emerges.

INNOVATIONS

1 Crystal Iridescent Dove Grey Pearl (001 954)
2 3252 Emerald Cut Sew-on Stone
3 5950 Fine Rocks Tube with ending

7 GEOMETRIC FLAT BACKS:
2771 Kite Flat Back
2772 Trapeze Flat Back
2773 Diamond Shape Flat Back
8 86 301 Half Hole Pavé Ball
9 1088 in Crystal Lilac (001 L126S)

Crystal and pearl combinations in excessive floral formations,
contrast in size and color to create sophisticated and elegant embellishment.

JEWELRY

Oversized and embellished artful, transparent crystal jewelry complements the increasing "Glamcore" trend.

*Crystal glass and all other materials containing 0.009 % lead or less.

RESPONSIBILITY

DOING BUSINESS IN A WAY THAT RESPECTS BOTH PEOPLE AND PLANET

FOUNDER DANIEL SWAROVSKI'S COMMITMENT TO RESPONSIBLE WORKING METHODS CONTINUES TO GUIDE OUR DECISIONS AND ACTIONS. WE HONOR HIS LEGACY WHILE ALSO RECOGNIZING THAT TODAY'S GLOBAL CHALLENGES NEED MODERN SOLUTIONS.

Climate change, water crises, gender inequality, economic disparity, forced labor, and the over-consumption of natural resources make it necessary for the private sector to step up. We have a role to play in tackling these challenges and working toward achieving the United Nations' Sustainable Development Goals.

Our vision is to drive positive change so that people understand that every time they buy Swarovski, they are contributing to a better world.

Accordingly, Swarovski has updated its sustainability strategy and priorities regarding where we can deploy our unique strengths so that they have the greatest impact across our value chain.
We also continually collaborate with the fashion, jewelry and design industries to improve our sector's commitment to ethical working practices. To this end, Swarovski strives to develop creative solutions that promote the responsible use of materials and resources and have a positive impact on the lives of those who make, use and wear our products.

INNOVATIONS OVERVIEW

THE TIME IS NOW

A sudden stroke of brilliance is nothing if not timely. But when opportunity knocks will you be listening? For sparkling designs filled with promise, for inspiration as Majestic Blue as the swell of the sea, for cohesive patterns as spellbinding as a kaleidoscope, and for designs that dazzle in any era, look no further than Swarovski's latest Spring/Summer 2019 innovations.

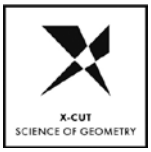
WHY SWAROVSKI

EXCELLENCE, THROUGH INNOVATION AND ORIGIN



X-CUT
Advanced optical measurement and high-precision manufacturing deliver premium cuts characterized by unmatched brilliance.

PLATINUM* PRO
With its new advanced foiling technique, Swarovski has set a new standard in the lifespan of crystals.

HOTFIX GLUE
The variable temperatures at which Hotfix glue can be activated enable the application of crystals on a broad range of textiles.

CRYSTALS – MADE IN AUSTRIA
The combination of innovation with sustainability and respect for individual wellbeing means that quality is always assured.

PREMIUM, BY SERVICE AND DESIGN

DESIGN SERVICE
Throughout its global network of Design Centers, Swarovski offers exceptional service provided by the industry's best creative talent.

APPLICATION SERVICE
A comprehensive range of application services means customers benefit from the extensive experience of leading international experts, as well as internal specialists.

GLOBAL SERVICE
Swarovski's Global Service Network provides customers with dedicated personal assistance on a local level.

DESIGNER EDITIONS
Creative collaborations with top designers result in exclusive cuts and unique designs for Swarovski crystals.

CUSTOMIZED SERVICE
Choose new variations by going beyond Swarovski's tremendous standard assortment of crystal components and forward integrated elements.

COMPLIANCE, WITH INTEGRITY

ADVANCED CRYSTAL
Swarovski's patented lead-free** formula has changed the DNA of crystal while still offering the same sparkle, dependability, and variety for which Swarovski is famous.

OEKO-TEX
Oeko-Tex® Standard 100 Class II (direct contact with skin) certification creates confidence in chemical safety of textile applications.

CLEAR
Regular legal monitoring of chemical requirements and reasonable testing provide customers with the comfort of trust in Swarovski's products.

COMPLIANCE SERVICE
Assessments regarding substance limitations as well as compliance information and advice to support customers in complying with relevant laws, regulations, and voluntary standards.

* Silver mirror coated with a platinum colored protective layer.
** Crystal glass and all other materials containing 0.009% lead or less.

SETTINGS SUMMARY FOR SPRING/SUMMER 2019

Following the launch of Swarovski's new settings in Spring/Summer 2018 , we are delighted to extend it in Spring/Summer 2019. Chief among the benefits of the additions is the use of Tombac as a base material—a brass alloy containing 85% copper that offers superb deformability, strength, and hard soldering capability. Further improvements include prongs with new premium-looking rounded edges; an advanced fit that minimizes the setting height; plating layers that exceed the market standard; and holes positioned further apart to maximize stability. With shorter lead times and, in some cases, reduced prices too, these new settings will make a significant difference to your use of Swarovski settings.

A NEW CHAPTER
THE BECHARMED & PAVÈ

LETTER BEAD

Leading the global mega-trend for customization and individual style statements, Swarovski is launching its exciting BeCharmed Pavè Letter Beads on March 5, 2018.

The Beads (82201) designed to allow all kinds of sparkling messages and creative stories to be told through jewelry and beading across the fashion and DIY arenas. This is the first time that a BeCharmed Bead is available in a completely round version: each bead boasts the ultra-contemporary good looks of sleek, high-shine stainless steel with letters of the alphabet picked out with the high-octane dazzle of Xilion Chatons in a glamorous pavé setting. Running from "A" through to "Z," with the hashtag ("#") and ampersand ("&") symbols also available, they encourage the wearer to create an endless variety of words and statements in eye-catching style.

Infinitely versatile and with irresistible appeal, Letter Beads can be used singly as an attention-grabbing highlight, or arranged to form whole words in order to personalize jewelry, accessories and apparel. There are also myriad imaginative design possibilities when a sparkling message is conveyed in combination with other BeCharmed Beads and Charms. Indeed, the entire kaleidoscope of the Swarovski assortment will also mix brilliantly with these glittering letters.

The Letter Beads are suitable for hand sewing and numerous hand-application techniques, and they can be easily threaded onto metal chain, leather or nylon cord via a standard 4.5mm hole. Furthermore, in order to ensure maximum flexibility when it comes to application, each letter or symbol is picked out in crystals three times so that the perfectly round 12mm-diameter bead – the first time this size has been offered – is completely encircled.

Application Advice

The Emerald Cut Sew-on Stone can be either sewn on or applied to different fabrics by hand. When processing the 28 mm version, a thread with a thread count greater than Nm 50 is recommended.

Care Instructions

Due to the size of this article (especially the 28 mm version) washing it by hand is recommended in order to avoid detaching the fabric and to prevent the crystals from being scratched:

Turn inside out and use mild laundry detergent (wash by hand, max. temp. 30°C, very mild process).	Do not use chlorine bleach!	Do not tumble dry!	Do not iron!	The textile can be gently dry-cleaned using perchlor-ethylene. Turn inside out.	The textile can be gently dry-cleaned using hydrocarbon. Turn inside out.	The textile will withstand gentle professional wet cleaning. Turn inside out.
				To protect the crystals as much as possible, the use of a soft wash bag is recommended.		

For detailed information about sewing, please refer to the Application Manual and our business website SWAROVSKI-PROFESSIONAL.COM

⚠ GENERAL WARNING

Loose crystals may present a small parts hazard to young children, particularly children under three years old. Depending on the size of the crystal and any attached material (such as glue, fabric, etc.), children may choke on, inhale, swallow, or insert the crystal into their noses. Magnetic products with crystal applications pose a particular risk of serious intestinal injury if ingested. The application techniques as stated in the Application Manual do not guarantee that crystals will not come loose. For each application, the manufacturer must determine whether the product meets the relevant requirements related to small parts hazards and assess any risk it may pose to small children. Failure to follow Swarovski's care instructions may result in damage to the crystal, which could pose a risk of laceration or other harm.

Warning for Tableware

Application of loose crystals to tableware presents a potential risk of aspiration, choking, swallowing, or tooth damage should crystals become loose. To reduce this risk, crystals should never be applied to any surface of tableware likely to come in contact with food or the mouth, and crystals should never be placed on any tableware intended for use by children. Tableware with crystals intended for decorative use only should be marked as such. To avoid dishwasher damage, tableware decorated with crystals should be washed by hand. The application techniques or suggestions in this manual do not guarantee that crystals will not come loose. For each application, the manufacturer must determine whether the product meets relevant requirements related to small parts hazards or use in food contact items and assess any risk it may pose to users.
The use of crystals (which may contain restricted substances deemed hazardous under local laws) and adhesives on tableware is subject to legal restrictions in specific countries. The customer is fully responsible to comply with these country-specific provisions and shall defend, indemnify, and hold Swarovski harmless from any and all third-party claims based on product liability or otherwise relating to uses of Swarovski products and waives all its own claims against Swarovski.

Notice for Application on Packaging

The use of crystal that may contain substances like lead, cadmium or hexavalent chromium, on packaging is subject to legal restrictions in specific countries, including but not limited in regard to the total content of substances based on the proportion between crystal mass to the remaining weight of packaging. The customer is fully responsible to comply with these country-specific provisions and to pass on this information to his customers.

Care Instructions

Failure to follow Swarovski's care instruction may result in damage to the Swarovski product, which could pose a risk of laceration or other harm.
Please be informed that all conventional laundering processes (household washing machine as well as professional dry-cleaning) have a considerable mechanical influence onto the garment, which is based on the rotation of the washing drum. The essential requirement for a safety laundering process is that the Swarovski products are proper applied without restrictions regarding the adherence of the Swarovski products. The bigger the size of the used Swarovski product is and the more Swarovski products are applied next to each other, the more a risk of damage has to be taken into consideration. Swarovski products are made of or incorporate crystal and therefore must be handled with due care! Generally, to best protect the Swarovski products from breaking we recommend the use of a soft washing bag and to fill up the washing drum. Turning inside out before washing and selection of a gentle washing program, plus the use of mild detergents are important prerequisites to safeguard the quality of our Swarovski products. Our care instructions based on DIN EN ISO 3758 list up all Swarovski product groups as overview so that each used Swarovski product still needs to be judged in terms of its cleaning suitability for the intended purpose and finished product by the customer. Swarovski's recommendations are given according to the current state of our knowledge and Swarovski's determination of the qualification as textile application product. The customer is therefore fully responsible to determine the cleaning process applicable to the finished product, taking the Swarovski care instructions as well as those of third party materials into account. The variety of shape, cut, surface effect, size and application weight respectively amount of used Swarovski products are decisive for the determination of the suitable cleaning process. To be entirely safe customers respectively dry-cleaners usually take off Sew-on Stones, Buttons, etc. of bigger size before cleaning and re-apply them afterwards.

Unsuitable Applications

Crystals from Swarovski are intended for use in the fields of fashion, jewelry, accessories, textile products, and for interior décor. Due to their physical properties, crystals from Swarovski are unsuitable for other uses (e.g. gluing onto teeth, using crystals on or near mucous membranes, and other unsafe uses). The customer shall defend, indemnify and hold Swarovski harmless from any and all third-party claims based on product liability or otherwise relating to uses of Swarovski products purchased by the customer, and waives all its own claims.

Responsibility of User

Any oral, written, or test-based advice that Swarovski provides regarding techniques for application of its products are recommendations based on Swarovski's current knowledge and the information provided by its suppliers. Such advice does not discharge the customer from carrying out its own tests of techniques it proposes to use and their suitability for the intended application. The application, use, and processing of these techniques and products are solely the user's responsibility.
